**System Requirements:**

When you first boot the game, it will not be able to load. Once the splash screen is over, you will be prompted to enter your password. Then, you will have a brief pause where you will see the "Loading" text, before the game starts. The game will run on the system's CPU at 60 frames per second. It will run best when the system is set to a single core processor and when the resolution is set to 1080p. The game is controlled via a keyboard and/or mouse. You may use both the mouse and
