With FotoMaps Pro, you can create interactive maps of your entire site. With no JavaScript needed, it is compatible with all modern browsers. The layout engine generates an HTML-based map without an image file. In addition, you can use many different map types: OpenStreetMap, Bing, Google, Bing, and more. You also have a choice of fonts, colors, Google Maps, and more. I'm a bit confused why this is in the "free" section, as it costs \$17.95 if you want to have 5 maps, unlimited images, logos, etc. but does not have the "branding" or "logo" support. Regarding the "free", "commercial" sections, i am not so confused, as i do not use a lot of paid extensions, just the "branding" support, that's the reason i'm in "free" < Last Edit: June 19, 2019, 11:43:15 PM by JonG > Logged Mardi Dasht air-Ya, 9.2. I love food, my own motherly ways, and the smell of apple pie baking in the oven. a good woman is hard to find these days - Charles M. Schulz - A good woman is the mother of compassion for all of God's creatures. Which means that the price of FotoMaps is either "boutique-like" or it's a "free" concept. I have a good experience with the support, i hope that you can support us back because there is a lot of projects like these. Tailor-made for FotoMaps Pro: - Fully Responsive design, in all compatible modern browsers. - Smooth scrolling and animations - Stylish design - match your site's aesthetic - Easily manage your cart and checkout process from the desktop or mobile device - Customize the layout and design of the entire checkout process - Price per single image, per cart, per add-to-cart button - Engage your customers and increase your sales - Compare your products and save every time your customers buy with the Live Update - Free to use for non-commercial use, only paid for the FotoMaps Pro extension Please support our vision of providing an alternative solution to the current market, one that combines FotoMaps' powerful and unique interface with fully customizable cart and checkout process.
