[Synthesis and pharmacology of 1-(2-phenylacetyl)-1,2-dihydro-2-methyl-1-phenyl-5-pyridyl- 1H-1,4-benzodiazepin-2-one. To develop a new anti-anxiety drug having a selective anxiolytic effect and a low addictive potential, some 2-phenyl-1-(substituted)ethyl amines were prepared and tested for their effects on spontaneous locomotor activity and on conditioned avoidance responses. Compound 6-(2-chloroethyl)-1-methyl-1,2-dihydro-2-phenyl-1-phenyl-5-pyridyl-1H-1,4-benzodiazepin-2-one 7 was found to have good pharmacological activities with a low t.l.c. and a relatively long duration of action. Its pharmacological profile included weak potency to inhibit conditioned avoidance response, no effect on spontaneous locomotor activity and a low t.l.c. A mechanism of the anxiolytic effect of compound 7 is discussed in relation to the results of the pharmacological test.Aitor Ríos Aitor Ríos (born 19 August 1997) is a Spanish professional footballer who plays for Girona FC as an attacking midfielder.
