Hacker News Bar on my home page. - nathanh ===== nathanh Built this with Backbone/Marionette, and it's pretty slick. I've had a feature like this in mind for a long time. I have lots of other things planned for that space (with comments, likes, and more), so we're going to drive it forward. Let me know what you guys think. ----- xd It's on my home page too. But the links are wrong for me as well. ~~~ nathanh Probably our fault. We're fixing it now. Differential effects of prolonged administration of quinapril and pindolol on glomerulosclerosis and proteinuria in a rat model of immunoglobulin A glomerulonephritis. The acute administration of angiotensin-converting enzyme (ACE) inhibitors, and beta-blockers have been shown to be effective in reducing proteinuria in some animal models of glomerulonephritis. We tested the hypothesis that chronic administration of either pindolol or the ACE inhibitor quinapril could prevent glomerulosclerosis and ameliorate proteinuria in the anti-GBM model of experimental nephritis. Both quinapril and pindolol were administered in the drinking water for 2 weeks after the induction of nephritis (quinapril-treated, n=8; pindolol-treated, n=8; nephritic controls, n=8). Untreated nephritic rats (n=8) were used as additional controls. Quinapril but not pindolol significantly reduced proteinuria, which
