ATSOFT BlueSender Crack + With Full Keygen (April-2022)

Using the latest Bluetooth technology, we enable businesses to send messages to customers or audiences for a ?wide variety of marketing activities. We are one of the preferred Bluetooth software solutions for businesses worldwide. ? The Bluetooth Sender provides businesses with hassle-free marketing. Put your message on thousands of Bluetooth enabled mobile phones and people will read it and see it! ? The Bluetooth Sender is a simple to use system. Once the Bluetooth dongle is plugged in, simply configure the messages to be sent and the location where the message should appear. • You can customize the message (text) (the message it will appear in) as well as the time and place of the message. • You can send the message to all mobile phones within a specified range. • Use the Bluetooth Sender to send HTML content (text & pictures), emails and most other content currently available on cell phones. • You can set the message for a specific time and/or place. • You can send thousands of messages with this software. • The Bluetooth Sender is purchased as a 1 time license and is not replacement for ?1 month license. Proximity marketing can be one of the most effective ways to reach people within a ?specific range. Bluetooth Technology ? Bluetooth technology is the most advanced in cellular communication. It allows you to connect computers, laptops, GPS devices and mobile phones wirelessly. ? Bluetooth technology can be found in many devices including mobile phones, cameras, MP3 players, PDAs, GPS devices, and more. ? Your mobile phone can act as a Bluetooth receiver. Bluetooth software allows a Bluetooth dongle to communicate with a Bluetooth receiver. Bluetooth dongles are small (1 inch) pieces of electronics that allows communication between Bluetooth enabled devices. • Bluetooth dongles are smaller than most mobile phones and can be easily integrated into products. • You can have up to 10 Bluetooth dongles at any one time. ?
