C# i can get my number value but i cant get my text ASP.NET Core c# @model.Duration

@for (int i = 1; i @i mins } I have the number value from my database and am trying to retrieve the text value using this but it doesnt seem to be working out i have tried both @Model.Duration and @Model.Duration but both show the same result Can somebody tell me what I am doing wrong please? A: Try to use for-loop also @for (int i = 1; i @i mins } I think this will work for you.

A study based on quantitative BX-TEM reveals that the cell wall of *Ustilago maydis* is thinner at 25°C than at 37°C. The cell wall is a vital structural component in the biosphere of microorganisms that play important roles in many biological processes, including pathogenicity and intercellular communication. Most wall biogenesis studies have been carried out at 37°C and little is known about the influences of temperature on

the cell wall of filamentous fungi. Herein, we demonstrate that the thickness of the cell wall at 25°C is significantly thinner than

press South Korea to hike defense budget AP, SEOUL Tue, Jan 22, 2013 - Page 7 South Korean leaders urged the United States to help South Korea expand its military while meeting in Washington on Friday, following months of sparring over the latter's lagging economy and stalled nuclear talks with North Korea. Seoul's foreign minister had a straight-to-the-point message, telling his U.S. counterpart that if Washington doesn't press the government here to raise military spending, Seoul will press on by doing so alone, said Foreign Minister Yun Byung-se at a closed-door meeting. In return, the minister said Seoul, while keeping its own military spending steady, planned to make up by buying American arms and equipment, such as F-35 fighter jets, with U.S. money, he said.

The U.S. State
