Photoshop is now one of the most popular platforms for creating illustrations and creating graphics for websites and blogs. Photoshop was originally designed by Adobe Systems in 1994 and was introduced to the public in 1995 as a standard word processing program. It had limited graphics capabilities, and the marketing message was simple, "Photoshop: It lets you edit photographs." As an illustration software, Photoshop had very limited capabilities. As time went by, Adobe Systems continued to make improvements and broaden Photoshop. Its marketing message became, "Photoshop is the world's best graphics software." In addition to being good at editing photographs, it soon became clear that Photoshop was a powerful tool for creating graphics in addition to creating photographs. Today, the marketing message is, "Photoshop: It's the most popular software for
